## === PRESENTATIONS ===

### Brilliant & Resilient!

We all must learn to face the ups and downs of life. And here is the good news: Trouble can be a great teacher, and often it is the struggle that makes us strong. This assembly presents the **7 C's that will help empower students with RESILENCY: Connection, Confidence, Competence, Contribution, Coping, Control, and Character** (Based on Dr Ken Ginsburg's work *"Building Resiliency in Children and Teens"*).

### Be a Bucket Filler

Inspired by the popular 'How Full is Your Bucket' material by Tom Rath and Donald Clifton that is being used by many schools these days. We all are born with 'invisible buckets' that represent our emotional and mental health. We need our own buckets filled with acts of kindness and we need to help fill the buckets of others — a concrete, easy-to-grasp way to help students understand the power of affirming words and actions.

### 7 Habits of Highly Effective Kids Show

In his exciting and innovative magical way, Steve Harmer reviews how these excellent 7 Habits can help guide students to success in every area of their lives: 1. Be Proactive, 2. Begin with the End in Mind, 3. Put First things First, 4. Think Win – Win, 5. Seek First to Understand, 6. Synergize, 7. Sharpen the Saw

*All presentations are geared to K-8 and 55 minutes long*
